

IRRIGATION TECH/2ND ASSISTANT: DAKOTA DUNES COUNTRY CLUB

The Dakota Dunes Country Club is the premier golf course in the tri-state region. It is in large part responsible for providing a profitable, high quality and customer-led' master planned community that enhances the total environment. We shall maintain it that way with the member in mind at all times. All maintenance tasks shall be accomplished with the least bother to the member.

The irrigation tech reports directly to the asst. supt. or the supt. and is responsible for the operation and maintenance of the irrigation systems at Dakota Dunes C.C. The irrigation tech is responsible for reporting any irregularities in turf quality due to moisture stress as well as performing assigned maintenance tasks.

Duties include: Water greens, tees, fairways, and landscape beds. Operates irrigation heads or hoses in dry areas requiring additional water.

- Repairs, checks, and trouble shoots the irrigation system and pump station.
- Performs all golf course maintenance duties, acting as an operator as seasonal labor short falls dictate.
- Assist in personnel management and evaluation, employee safety, personnel discipline while performing first priority (irrigation) duties.
- Assist in all nutrient and pesticide applications and obtain a South Dakota Applicators license.
- Work in the shop performing winter over haul procedures to the Dakota Dunes equipment fleet.

Wage: Salaried position 25-35K per year, hours are as required depending upon season, weekends required based upon hours of operation.

Benefits include: Major Medical, Dental, 2 weeks paid vacation, use of club facilities on a space available basis, Uniform, 401K, and memberships to local chapters.

Personnel requirements include a two or four year turf or related degree and two to four years of golf course experience. Ideally, the irrigation tech. will have held the chemical applicators position at Dakota Dunes or have equivalent experience.
